🐙 GitHub | 🔗 LinkedIn | 🌐 Portfolio

Career Objective

Computer Science and Artificial Intelligence graduate with hands-on experience in Python, Machine Learning, and AI application development through internships and academic projects. Seeking an entry-level opportunity to apply my technical skills, contribute to a collaborative team, continuously learn new technologies, and grow as a Software Engineer while delivering impactful solutions.

Technical Skills

Languages	Python
Machine Learning	Classification, Regression, NLP, Feature Engineering, Model Evaluation
Generative AI	Prompt Engineering, Ollama, Hugging Face Transformers, T5
Libraries	Scikit-learn, Pandas, NumPy, Matplotlib
Frameworks	Streamlit, Flask
Database	SQLite
Tools	Git, GitHub, Jupyter Notebook
Deployment	Streamlit Community Cloud, Render

Internship Experience

AI Intern – Infosys Springboard

Sep 2025 – Nov 2025

CodeGenie – AI Explainer and Code Generator

Remote

- Built a ChatGPT-style AI coding assistant using Python, Streamlit, and Ollama for offline code generation, debugging, explanation, and review.
- Integrated OCR using Tesseract with pdfplumber and python-docx to analyze code from images, PDFs, and Word documents.
- Designed prompt engineering workflows and deployed the application on Render with local LLM inference using Ollama.

AI/ML Intern – 3SKILL

Dec 2025 – Feb 2026

AI & Machine Intelligence Internship

Remote

- Developed a Random Forest model for wine quality classification, achieving **87%** prediction accuracy.
- Performed data preprocessing, exploratory data analysis, feature engineering, and model evaluation.
- Built and deployed an interactive Streamlit application for real-time wine quality prediction.

Projects

House Price Prediction System

🐙 GitHub Repository | 🌐 Live Demo

Python / Streamlit / Scikit-learn

- Developed a **Linear Regression** model achieving approximately **90%** prediction accuracy through feature engineering and model optimization.
- Designed an interactive Streamlit interface for real-time house price prediction and deployed the application on **Streamlit Community Cloud**.

AI Health Symptom Checker

🐙 GitHub Repository | 🌐 Live Demo

Python / Flask / SQLite / Hugging Face

- Developed an AI-powered healthcare application using a **Random Forest** model for disease prediction with secure authentication.
- Integrated Flask, Hugging Face chatbot, voice input, SQLite database, and automated PDF report generation, then deployed the application on **Render**.

Education

B.Tech in Computer Science & Artificial Intelligence Kakinada Institute of Engineering and Technology for Women CGPA: 7.78/10	2022 – 2026
Intermediate (MPC) Triveni Junior College GPA: 9.07/10	2020 – 2022
Secondary School (SSC) Triveni Educational Academy GPA: 10.0/10	2019 – 2020

Certifications

Foundations of Modern Machine Learning (Grade A) IIIT Hyderabad (iHub-Data)	Credential
Applied Artificial Intelligence: Practical Implementations Microsoft SAP Edunet Foundation	Credential
Internship 6.0 (B2): CodeGenie Infosys Springboard	Credential
AI & Machine Intelligence Internship 3 SKILL	Credential
